Was kann die **Logistik der Zukunft?**  
What's the Scope of Logistics in the Future?

# upper canada village discovery centre

MORRISBURG, ONTARIO, CANADA 418M<sup>2</sup>

Reich+Petch Design International also designed a new visitor centre for Upper Canada Village, bringing new exhibit space to this living history site.

The 743 sq. m. building is intended to attract a new, younger audience to the Village and help set the stage for visitors as they

enter the recreated 19th century village. The building is intended to control the visitor's entry and exit and to enhance a connection to the Village Store, a main revenue generator. The addition of the Visitor Centre also allows the park to extend the tourist season through the cold-weather months and provide activities during bad weather.

Within a 418 sq. m. primary exhibit space, displays were created which allow visitors to learn about the St. Lawrence River as a place to live in, and work. Engaging and interactive exhibits about Living Along the St. Lawrence River focus on agriculture, industry, social dynamics and transportation. An interactive touch table engages visitors

in relocating buildings from the inundation of the river to make the Saint Lawrence Seaway. Visitors also learn about the role of the river as a natural border with the United States, and the significance of this during the War of 1812. A large mural of the battle and life-sized sculptural figures form the anchor to an immersive AV presentation on

the Battle of Crysler's Farm. The exhibits in the Upper Canada Village Discovery Centre give context to this rich living history site and enable visitors to enter the historical village with a fuller understanding of the site and the people who lived there.

**LANDSCAPE 1**  
1.0 A Strategic Location, 10.0 Lobby

**LANDSCAPE 2**  
2.0 War of 1812, 3.0 Battle of Crysler's Farm, 4.0 Emerging Canadian Identity

Over 25 years, we have evolved our viewpoint  
about design to create extraordinary  
moments and opportunities for people to have  
experiences that change their understanding  
and perspective of the world they live in.
